

Honda CBR 2012 Just been serviced (20 GBP)

Location **Scotland, Peeblesshire**
<https://www.freeadsz.co.uk/x-517248-z>

Perfect commuter bike, town riding with enough power to enjoy a double life at the weekend on the twisty country roads. I did my whole advanced rider training on this bike with no issues with power. A2 licence legal, suitable for smaller riders.

Low mileage, and has less than 100 miles since it was given a full service. Brand new tyres fitted at last service, as you can see from the picture the protective coating in the photos.

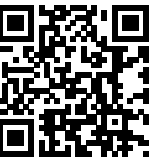

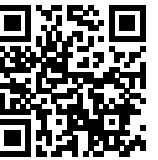

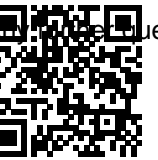

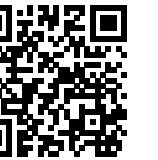

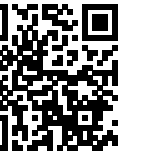

Two cosmetic scratches on the exhaust cover, and part of the engine casing. This is from a misjudged bit of parking and from slipping off a stand in transit. Otherwise, there is no major damage to the bike, it has never been in any sort of accident or been dropped. The rear brake light cable should be adjusted or replaced especially as the days start to get shorter.

Currently has battery charging pack (£30) attached and I have an Abba stand (RRSP £100) which i would consider selling or bundling in with the bike.

I am selling this bike as I have moved and wasn't able to take the bike with me, and therefore, it is sitting in a garage when really it should be out clocking up miles during the upcoming summer months.

I have the service record, MOT cert., 2 keys and taxed until the end of the summer. One previous owner who didn't ride it very much. Sold as seen.

Have any questions about this bike or this ad, please drop me a message
