

Ride on mower ALKO (1,250 GBP)

Location **South West, Somerset** https://www.freeadsz.co.uk/x-520711-z

A looked after AL-KO ride on mower.

38 inch cut with the option to either collect or fit the back chute and rear discharge.

Great for cutting damp or wet grass and controlled with the foot pedals, even the blade engagement is foot control.

13hp Briggs and Stratton commercial engine for a longer life. grass collector that empties without exiting the mower and a new battery just fitted.

A very easy to use ride on mower without all of the fangle dangle gizmos to go wrong and built with German
