

Precise Long Range Metal Detector-MEGA G3 (1 GBP)

Location **Northern Ireland, County Durham**
<https://www.freeadsz.co.uk/x-520939-z>

Introducing our latest model metal detector-the MEGA G3. It was designed for the detection of treasures and minerals (gold, silver, bronze, copper, cavity, gemstones, and Diamond) without being influenced by rocks or erroneous signals that can be transmitted from the ground. It has long range locator mode which can detect up to 1,500 meters front range and 40 meters deep underground with the ability to explore all types of terrain including mountainous, muddy and even rocky land. MEGA G3 has LCD high resolution screen and long lasting battery which can be used up to 20 hours. You can also request additional batteries if required. FEATURES: 1. High resolution LCD Screen 2. High sensitivity in detecting gold and other metallic targets 3. Detects up to 1200m front and 14m deep 4. RST MODE-to be able to detect even the smallest target with a size starting from 1 gram. 5. Long Range Locator Mode TECHNICAL PROPERTIES 1. Display : TFT 4,3 inch 2. Display illumination : LED 3. Microprocessor : ARM 4. Operating frequency : 168 MHz 5. Control buttons : Touch operated 6. Scanner antennas : Chrome plated, 1 pair 7. Operating voltage : 3,7V - 4,5V 8. Rechargeable battery : 3,7V, 3600 mAh Li Ion 9. Nominal current : 400 mA 10. Charging adapter : 5 Volts, 2000 mA, Charge indicator with 11. LED(When charging is done LED fully dims). 12. Auto charging adapter : Input:12V, Output: 5V, 1000mA USB 13. Hard case : Waterproof ABS, sponge coated 14. Weight : 5,5 Kg (Cases included)
