I'm selling my Suzuki sv650s. I'm selling due to lack of use and confidence just isn't there any more I've just had a Mot done end of April and service. There's some history with master key and tag. there's no real marks on the bike and tires was only fitted last year great bike and don't see many fully faired versions. By all accounts it's a bit of a ltd edition with the blue and white
