And a DVD Writer.

SSD and Motherboard firmwares are updated to the latest.

The case is 2 front fans, 2 top and 2 rear, detachable dust filters, easy to open, for better airflow.

All this system needs is a GPU and you will be good to go for 1080p maxed out!

Windows 10 x64 is installed with some extras like Office 16 and fully updated with latest drivers and so on.

The only box's I have are for the Corsair H90 and the Motherboard.
