Murphy is a grey 11.2 non registered section a 9 years old. He is low mileage as in previous homes he has been picked up and put down again a lot. He has been with us for a year as my daughters lead rein pony, attending gymkhanas and mounted games. He's safe to hack, he prefers company but equally doesn't do anything if he is alone. He has been lead off another horse but hasn't done a lot of it. He isn't a wildly experienced pony and prefers adult handlers to children, he doesn't bite or kick but can be a bit bargy at times if someone has time to put in to him he could be a fantastic pony but my daughter is now ready for first ridden. He has only lived with geldings with us but we have been told he is not suitable to live with mares. He is fine to clip, dentist, farrier. Will travel in trailer or lorry. He is priced to sell, respectfully no loans or.
