

Acer Aspire 5100 Laptop (30 GBP)

Location **South East, Kent**
<https://www.freeadsz.co.uk/x-533425-z>

This is a Acer Aspire 5100 it has a 15.4 inch screen, 1gb of ram 120gb hdd, wi-fi, and dual layer dvd rw, when you switch on the laptop starts the fan and it shows lights on the top but the screen does not activate, now what I know about laptops could be written on the head of a pin but I have been told that the reason could be because it has been DBAN wiped so it will need a operating system installed before it will boot up, please bear in mind what I have said about my knowledge, it comes with the hdd, memory and.
