Location **West Midlands, West Midlands**  
<https://www.freeadsz.co.uk/x-534176-z>

Boxed. Used once. Beautiful Clear Sound.

Black, On Ear, Closed Back Headphones

Smooth, accurate sound

Using Oppo's revolutionary and uniquely-designed planar magnetic speakers, the Oppo PM-3 headphones don't sound like other headphones at their price; they sound way better. The multi-layer diaphragm responds in such a way that the sound offers superb levels of accuracy and precision. It also offers incredibly low levels of distortion, meaning you hear tiny details that have previously been masked.

Closed back for maximum isolation

The Oppo PM-3 headphones use a closed back design for the maximum noise isolation. Closed back designs not only cut down on noise leakage, they also let less background noise in, meaning you can hear more detail, without having to turn the volume higher.

High sensitivity ideal for portable devices

Striking up yet another advantage, the efficient speaker system means that these speakers are easy to drive. Ideal for use with your portable High Resolution audio player or even your smartphone, they won't drain the battery in minutes.

Long term comfort

The headphones padded earcups and headband of the PM3 headphones offer long term comfort. With soft large earcups and a weight of just 250g, they are remarkably comfortable for long periods of your headphones.

These were an expensive and unwanted gift. Cost GBP400. Would like GBP300.

Please text me first rather than call. Thank.
