

Memory Potifa Photography, Photographer for all types of events and portraits

Location **Yorkshire and the Humber, West Yorkshire**
<https://www.freeadsz.co.uk/x-537363-z>

Hello! I'm Memory. I'm a photographer based in and around Leeds in the UK. I am here to capture those magical moments that you wish to keep forever and create an image that you are proud of to have as the visual representation of your company. I aim to produce natural, relaxed images and I have learnt how to give the client the best work in any situation. I found that I loved events and portraiture photography through the jobs I have done such as working at university nights out and festivals. My friendly and open personality allows me to connect well with people and put them at ease allowing me to produce natural high quality images.

Events

I am available for all types of events from parties and festivals to formal functions and corporate events. Above shows some of the work I have done at events in the past. I love to capture true moments at an event that provide you the client with lasting memories and a great visual representation of your company.

What I offer for events

I will talk with you before the event to arrange all the details and ensure that we both understand exactly what you want.

I will stay at the event for as long as you need me and show you some of the photographs throughout to make sure you're happy with the work.

After the event I will go through all the images and edit them to ensure they are suitable for your needs i.e if you are printing or using for social media. I will then place all the images onto a memory stick for you to keep.

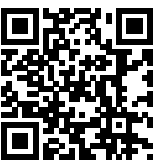

Costs: £50 for the first hour / £30 every additional hour
 The price includes a 20 min session before the event, my time at the event, an editing work post event and a memory stick with all images. The package will be split into two sessions, one for the social media and the other for the internet. This means you'll have the best images regardless of the occasion.

Portraiture
 I offer portraiture for individual, families and groups. I have worked with parents and children, individuals and musicians. The experience I have gained in this area allows me to get great results for my client and photograph them at their best.

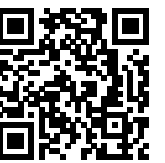

What I offer for Portraiture
 Each session will be tailored to the client, you will choose the location, your outfit and any props that you wish to use and I will use my knowledge to bring it all together.

â€ˆThe cost of a session is £50

This includes an hour with myself for the photo shoot, post editing of the images and a memory stick with all your images to keep. For large groups there may be additional cost due to the extra time required, I charge £30 for each additional hour.

For off my work check out my website on the link below
