

Microscope Light Source Manufactured by Microscope Systems Limited

Location **Scotland, Strathclyde**
<https://www.freeadsz.co.uk/x-539847-z>

Microscope Systems Limited now provide CoolLED LED light sources for microscope applications. This type of source gives intense, stable excitation at a saprate wavelength.

Main benefits of the CoolLED pE-100 are:-

- No Mercury
- Economical
- Instant on/off
- Full range of wavelengths available
- 0-100% intensity control
- Simple to install
- Simple to use
- Long stable lifetime
