This strong, quite heavy, wooden gate will need hinges and a lock but there are 2 bolts top and bottom. Although it must be 15 years old, there is no sign of rot or wood worm. Measures 178 cm x 91.5 cm. (70 inches x 36 inches) Must be collected but I would be around to help load it into or onto a vehicle or trailer. Faded colour but can easily be re-stained or painted to.
