BMW 316 ti, 1.8 automatic
 new tyres, new breaking servo! Really clean paintwork, only a few scrapes on the bumper, really smooth gearbox, great runner when it's running! Alternator belt has snapped, caused the car to overheat and burst the waterpumo pipe, I don't know what other damage it has done but I was told the head gasket is fine! Was running fine before! Got the full BMW service history! Out of MOT! Will need tow truck to pick up, happy to sell as parts or if someone wants to get it.
