This laptop, although showing some wear (shiny keys and a small crack on the edge of the keyboard, shown in pictures) still works with no issues and would be perfect for a student. I am selling because I now have a newer laptop.

The battery has been replaced by Curry's Knowhow and so has the charging cable and power box. Will come with the original box and manuals that I received when the laptop was new.

 - Intel Core i3
 - Screen size 15.6"
