We are searching for the perfect fit for our pups. The perfect homes would include a fenced yard for loads of play time, children so they will be loved and played with and a home who could provide loads of time with them. We have had the first parvo round of shots done. Strongid dewormer from the vet was given and they need additional "catch" up dose in 1 week. New families need to be super understanding that puppies aren't just 100% trained when they get them. Yet Pugs are very smart they will catch on quickly. Families who like to adopt one of my babies contact me We are asking a rehoming fee of . We will give you their food bowls and puppy pads that we use now. teddy bear Pug. Male. He is a very attention seeking puppy . Still learning to go potty outside. The vet said once he gets neutered it should help him not pee inside. He has had all his shots. He will come with a cage, some food, toys, treats, and a leash. Any other questions feel free to ask. 3 month old male Pug . Vaccines are up to date. KC, Pedigree, and microchipped. he still looks the same just cute. Looking for a great family or someone that has the time and love they can share with this little
