I purchased the four piece shell kit new in 2000 (happy to include receipts)
 It is in fine condition. No snare crash on the mounted 12"x 10" original tom.
 The second 13"x 10" tom, was added about two years ago.
 It was imported from America.
 The 13" x 10" drum has not been as well kept as the original kit, but is in pretty good order.

There are two VERY small dings in the Bass drum, and I have replaced one of the spurs with the newer version.

but other than that it is all operating as it should.

The set of cymbals on offer with this kit are in good condition, no key holing, cracking, or edge damage.

As you will be able to see from the images I will provide the cymbals are excellent quality, and sound great.

Collection.
