JMB Blower-Vac-Mulcher.

Excellent used condition, fully working, with all parts.

Last used on Monday to clear my gardens, Mulchers everything to very fine compostable material even sucks up damp leaves without a problem.

I have had this for many, many years but must admit I have not used it for a few years on till Monday. I am only selling as I managed to get a brand new Ryobi machine for a very good price and all my tools are now Ryobi.

Can be seen working. Price is a bargain, no offers just £25. I can deliver locally for an extra £3, I will not pay to use toll bridge so no Widnes.
