Brand new and still in packaging 9kg Black Hoover condenser dryer.
 Reason for sale is it was sent by my insurance company to replace a different dryer that had broken. However the model number they kept sending me was a condenser when I wanted vented. In the end I kept the final one they sent me and bought the one I wanted. Need to sell this one to cover the cost. This item still retails at just under £300 so it's a great price.
 I can't take better pictures as its still in all its packaging and is brand new.
