

Light Therapy Centre

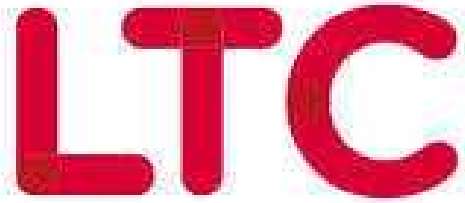

Location **Wales, West Glamorgan**
<https://www.freeadsz.co.uk/x-560029-z>

Light Therapy was discovered by NASA and have recently gained global popularity among dermatologists and skin care specialists as the 'GO-TO' treatment for all skin issues.

Light Therapy is a unique type of light that penetrates deeper into the skin, improving skins structure and appearance with also providing many therapeutic benefits. There is no UV associated with infrared light.
