Immaculate condition fujifilm x100t with 50mm equivalent fujifilm teleconverter.

This camera has had, in all honesty, very little use. I love it, I just don't use it!

With the camera I'm bundling in all of the accessories that I purchased for it.

Leather half case, leather strap, soft release button, thumb rest, lens hood and clear filters and 3 batteries.

The big value extra (£200) is the 50mm equivalent screw on fujifilm equivalent lens. It adds even more flexibility to this amazing tiny powerhouse of a camera and creates probably the best street set up this side of £1000.

Comes with all original packaging.
