This is a ovation style elec acoustic 6 string guitar from Encore, Mode 7f - TS. In used condition, this guitar plays well. It is adaptable to use amplified but as It Does play amplified , it is with issue The system is a little tired and at the moment woul not suit playing a Hall or open audience and would benefit from an Pick=up. The one used on this model is a saddle pick-up 2 controll pots, Tone & Vol and jack plug. Either Transponder type or renew the under sadle system would be an inexpensive and easy fix. But as short of time its selling "AS IS" at the moment until such time I do the job...then this price will be revised to suit. So I am selling as-is with reasonble offer welcomed...but for only a short period.

This is a collection item and be tried when you arrive.
