IVECO DAILY INSTRUMENT CLUSTER REPAIR (2002-2008)

£150

The Iveco Daily Dash failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster.

The repair is carried out by fully qualified electronics engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required.. Your mileage reading will also stay intact, so there is no need for mileage correction.

Your Iveco Speedo can be repaired at a fraction of the cost compared with the price of purchasing a new one.

COMMON ISSUES

Failing warning lights
 Speedometer problems
 Flickering cluster
 Complete power failure
 Failing Pixels on screen

REPAIR PROCEDURE

1. Remove the cluster from the instrument panel on the vehicle.
2. The repair is carried out on our workbench, you do not have to bring your car to us. We will provide a return label and secure it to the front of the box for your reference.
3. Sign the form, cut off the address label and secure to the front of the box.
4. We recommend sending via Royal Mail Special Delivery UK.
5. When we have received the cluster and have repaired it we will call you for payment via telephone.
