Mare £1000

Colt £200

Both chipped and passported

Mare: General hacking pony but will jump for you. Will be 17 years old this year but doesn't act or look her age at all. She is around 13.2hh - 14hh. Snaffle mouth and is a really nice and easy ride. Currently barefoot but has been shod before. Tack & rugs included. Will be most suited to a petite/light adult. Loves people and dogs and will run down the field to you and call you once she gets to know you. She is such a sweet natured pony and it will be heart breaking to see her go.

Colt: 8 months old. Cheeky and confident. He is an absolute pleasure to be around. Loves people. Will not grow to be very big so will most likely be a child's pony. I've estimated around 12hh but could be wrong. I've only managed to get the headcollar on him and his rug. He's not lead broken as I simply don't have the time, hence reason for sale. 5 star home only for this lovely boy as I want him to have the best start to his life, which I cannot provide. Rug and headcollar included.

It would be nice for them to go together as parent and child ponies but they can go separately. No time wasters please because this was a very hard decision to make and it took me months to decide whether or not to sell. So I would like them to go asap.

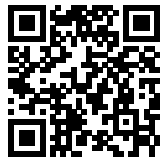

Welcome to view both and try out the mare.

If you are interested. Please ring me after 3pm. If I do not answer, I will ring back when I'm.
