

Hackintosh UK Installation service pre-installed SSD039s

Location **East of England, Cambridgeshire**
<https://www.freeadsz.co.uk/x-569848-z>

WE OFFERING

Hackintosh is essentially a desktop computer with a MacOS operating system from apple. A new Hackintosh device may be 3 times cheaper than apple's own systems, whilst providing more powerful hardware and more efficient returns.

Price

Up to one third of the price of a similarly specified MAC device.

Our products are usually 2-3 times cheaper than the price of a comparable Mac! Another advantage is the ability to upgrade the hardware when necessary, potentially saving hundreds of pounds.

Performance

The beast

We build Hackintosh devices that out perform official Macs for a fraction of the cost.

Upgradeable

You can upgrade components!

Apple devices are known for their inability to expand and upgrade as time passes by. Our Hackintosh devices are open construction, and ideal for expansion. It is possible to replace the processor, memory, graphics card and many other parts. Whatever you need, we can provide a solution.

Trouble-free

Much better hardware!

Hackintosh devices are assembled with solid components that are literally trouble.
