Boxed and only used a few times. Genuine reason for sale as not enough room in kitchen. Was a gift but just not what I want but brilliant. Best way to describe is it does in 3 hours what nature does in 3-6 months, just brilliant.

This Smart Cara Food Waste Disposal Unit is the missing link to the food waste reduction eco-system as it reduces food waste by 80-90% in only 3 hours. The stand-alone unit for home or office requires no installation and no blockage. The independent unit can be placed on top of a cabinet or enclosed within.
