Mahogany Wall Cabinet for sale., This antique mahogany wall cabinet is 27" (69cms) high, not including the capital (the bit at the top). It is glazed on three sides and has three internal shelves, including the base. The shelves have a gold painted edge. The lock works and the key fits well. Depth is 6" (15.5cms). Reluctant sale due to downsizing, but a lovely piece for someone new. Item location: Cheddar,.
