Bearing edges have all been cleaned, smoothed and lubricated. The batter heads have been replaced with "nearly new" Remo Weatherking Pinstripes on the Toms and an Evans Genera HD Dry head on the Snare, which has really made a difference to the tone of these drums. As budget kits go, this is a decent kit, perfect for reasonably new drummer looking for an inexpensive "Rock" kit to give a good beating!!

There are a few scuffs on the shells, which you can see in the pictures. .

The hardware is all in good condition.

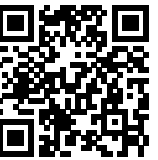

Collection only, due to the size, however, depending on where you are based, I could deliver to you and assist with setting up if required- please send me a message to confirm.
