

Wooden Butler's Tray On Folding Stand. Unused. Undamaged. Boxed. Multi Functional For House Or Garden. Lounge, Bedroom, Kitchen, Hall, Bathroom, Conservatory. Very Good Condition.

This is an elegant wooden Butler's tray on a matching folding stand with four fabric straps. It is a really useful practical, multi functional item for use throughout the home. The tray lifts off the stand and can be used separately. The stand folds so it can be tucked away when not required. Both items are lightweight and easy to move around.

This Butler's tray and stand could be used as a side table, or console table, in a lounge, hall, bedroom, kitchen, bathroom, or conservatory. It could also be used to serve refreshments in the garden, although it should not be left outside all the time.

This item would really be appreciated by visitors in a guest bedroom - particularly if stocked up with water, biscuits etc.

The stylish, sturdy and durable rectangular tray has curved top edges and integral carry handles at either end. Its stand has unusual curved legs. This set is made from attractive light coloured natural rubber wood, which has an interesting grain and patina. If you so wished it would be easy to apply paint in a colour of your choice. No assembly is required, other than to place the tray on the stand.

Height (to the top of the tray when on its stand) approximately: 71 cm.

Width approximately: 60 cm.

Depth approximately: 40 cm.

This is a private sale from a pet and smoke free home. Although pre-owned this Butler's tray and stand have never been used. This set is undamaged and is still in its original packaging. I purchased several of

these Butler's tray and stand sets for use throughout my home - from Lakeland (who are renowned for such quality products) to the tray and stand set offered to me. We have enjoyed the surprise.
